

Mags enjoyed going to see Paraguay play against El Salvador

Expupils working in school

It's been great having Victor join us from the annexe for the official Paraguayan side. He seems to be settling really well and has been well accepted by all. The annexe school has also started well with Catalino in charge there. We have a few other new staff too and they all seem to be settling well.

Plans for our 50th anniversary are well under way. The children are all planning to depict a decade from 1960 to the present day to show to the whole school and to present on our Gala evening in June. The school's birthday is March 18th and so we are going to have our celebration on the 22nd, combining our Easter service and a service of thanks to God for His faithfulness. During that week we will have a school birthday party too.

Victor with Sec staff

Gwen is back in the infant class with quite a challenge this year as we have a little boy who has autism and needs constant care, usually the psychologist is with him. We also have 2 other boys who have slight, similar problems. It's hard work but over the years we have seen how the Lord can work in each child and we celebrate any achievement. Gwen is only going to the class in the mornings and the afternoon is being taken by Fabiana, one of our ex pupils!

Church seems to be going well as different people take the service each week. Tomorrow we are leading and Tim Curtis is preaching. Mags is busy preparing the powerpoint for that. Our next main service will be at Easter so we will have to start thinking of that soon. The bishop and his wife are in England until the end of March and we have been coordinating who does what.

Many thanks for all your prayers and support.
God Bless,
Lots of love,
Gwen and Mags xx
